Instructions for file uploads:

Caution: *These instructions have been designed to limit fraud. Follow these instructions carefully to avoid suspicion of fraud.*

Step 1: Hold up all papers that you will be using to answer the questions of the exam in front of the webcam (both sides) before the exam starts. All papers must be completely blank.

Step 2: Answer all questions of the exam. For questions where you are asked to upload a file with a handwritten solution, you can answer the question on paper. Remember to write down your student ID on each page and the number of pages on each page (e.g. 1/2; 2/2). Do not upload anything before you have finished answering all the questions!

Once you have finished answering all the questions, please continue with step 3. You are not allowed to adjust answers after you have taken photos of the answers. This will be checked afterwards by a reviewer. It will be considered fraud if you adjust any question after having taken photos with your phone. Take at least 10 minutes for the last steps to complete the whole process.

Step 3: Show all your worked-out solutions to the webcam. Make sure they are visible for at least 2 seconds.

Step 4: Take a picture of all your worked-out solutions with your mobile phone.

Step 5: Send these pictures to your personal TU/e email or transfer the files to your computer by using a cable.

Step 6: If you transferred the files to your email, download the files that you have just sent to yourself. You can check the quality of the images and adjust the name of the file, so you know where to upload which picture in your assessment (i.e. the worked-out answer to a particular question).

Step 7: Navigate to the right question and upload the file(s) in the corresponding answer box.

Step 8: Save the original paper on which you created the answers.

Do not panic if you were not able to upload all your files for any reason. At the end of the exam, you will receive instructions on how to solve this issue. Only make sure you follow the instructions given.

Important:

- Examination scripts (fully completed examination paper, stating name, student number, etc.) must always be filled in and/or uploaded according to the instruction.
- The instructions of examiners and proctoring agency must be followed.
- No pencil cases/breadboxes are permitted on desks: your desk should be clean.
