At the end of the first year of your bachelor’s program at TU/e, you will receive a binding recommendation on the continuation of studies (bsa). In the first year of your bachelor’s program, you must obtain at least 45 of the 60 credits. If you earn less than 45 credits or do not meet the additional requirements, you will receive a negative bsa. In this case, you will not be able to enroll in the same program for the next three years. If, due to extenuating personal circumstances, you will (possibly) not achieve the bsa standard, you must report this to your academic advisor as soon as possible (within 20 working days). You will then start the track ‘extenuating personal circumstances’ bsa.
