

Please submit your complete coherent package(s) and your USE learning trajectory as package (not as separate courses).

To do this, you have to search for the coherent package / USE learning trajectory in the catalogue and click on 'Plan Later'.

The screenshot shows the TU/e course catalogue interface. At the top, there is a navigation bar with 'Plan', 'Onderwijscatalogus', and 'Curriculum'. Below this, a search bar contains the text 'introduction in automotive'. The left sidebar has filter options for 'Pakketten' (Coherent pakket (3)) and 'Collegejaar' (2022 (1), 2021 (3)). The main content area displays search results for 'Coherent pakket - Introduction in Automotive'. A table lists three courses: 5XIA0, 5XSC0, and 5XWF0. Each course has 'PLAN LATER' and 'PLAN NU' buttons. A red box highlights the 'PLAN LATER' button for the first course. Below the table, there are two expandable sections, each with a 'PLAN LATER' button.
