Location of the internship	Eindhoven, The Netherlands / The Hague, The Netherlands
Internship period	Autumn/Winter 2019
Application deadline	July the 30th

DETAILS

Description of the internship	Each semester, VanBerlo looks for an enthusiastic Industrial / product design student who wants to gain experience in a variety of projects. If you want to develop yourself in the area of industrial / product design, convince us of your skills and maybe you will be the next product design intern of one of Europe's largest independent design agencies.
Student's responsibilities	What we are looking for You are someone who dares to show us their vision, passion and work mentality. A conceptually strong individual who can work from a broad perspective, including brand and business sensibility. Specific tasks include: Conceptual sketching, visual research, ideation, document layout and presentation, CAD modelling, model making and prototyping.
The company is offering	What we have to offer <ul style="list-style-type: none">• You are keen on learning and working in the forefront of innovation where you are encouraged to be creative• The opportunity to work for a wide range of international clients• An inspiring work environment with 80+ enthusiastic colleagues• Attractive employment conditions• Being an intern at VanBerlo will boost your career and your personal development!
Qualification / Skills	Conditions VanBerlo only takes on trainees in the form of "experience traineeships". We do not take on trainees with their own projects, or those looking to work on a final thesis project. To qualify for an internship position at VanBerlo you have to be registered as an EU citizen or you are from outside the EU and studying at a Dutch University. You're looking for a company where you have the opportunity to grow and refine your skills. You bring to VanBerlo the following proficiencies: <ul style="list-style-type: none">• Willingness to support all levels of design staff• Positive attitude with an emphasis on self-motivation and quality of work• A portfolio that shows breadth, attention to detail, beauty, innovation and process• Great communication skills from verbal to 2D sketching• Pursuing a degree in Industrial or Product Design• Highly proficient in basic ID tools
