

Product Design Internship

at DESIGN2GATHER

Are you looking for an exciting Internship?

We offer you a 6 month industrial design internship in our design team located in Eindhoven. From February 2022 till the end of June 2022.

Who are we?

Design2Gather is a design agency with studios in China and, since 4 years we are located in the Netherlands as well. We create innovative designs that are directly ready for mass production. With a strong focus on end-users and business needs, we aim to create impact with designs that stand out from the crowd. We design products and services for start-ups, SME's as well as corporates in both Asian as western markets (Heineken, Watsons, Under Armour, Disney). Our support our clients with Product Design & Development, Visual (Brand) languages and Creative Facilitation of strategic and service challenges.

*Design2Gather works as one team from two locations,
to combine the best of both worlds.*

What do we offer you?

As intern at Design2Gather, you will be part of a relative small, young and energetic team of designers who love to design and develop cool stuff. Throughout your time at our team, you will have your own responsibilities, projects and design tasks. You will have the opportunity to work for real life project for a wide variety of international clients. Together with our team in Shanghai, you are part of our 'in-house' design & development team, together we will make ideas reality.

What are we looking for?

We'd love to see you practice in a role as junior designer; self-starting and proactive, with a professional attitude, willing to give the best for the benefit of the projects. You are able to work in a multidisciplinary design team as a passionate, out-of-the-box thinker who dares to share their thoughts and ideas. On product design and development projects as strategic and service design challenges.

Our ideal candidate

- Pursues a degree in Industrial design, Product design, service/strategic design or similar.
- Has a user-centered mindset with the ability to envision different user perspectives and scenarios.
- Is familiar with Design Thinking and service design to enhance business strategies and services.
- Has the ability to translate insights into realistic concepts and meaningful product designs.
- Has strong visualization skills, both 2D and 3D
