

Creative Engineer internship

INTERNSHIP - EINDHOVEN OR THE HAGUE - EACH SEMESTER

We're on the look-out for talented and enthusiastic Design Engineering students who are looking to gain experience at one of the world's top design & innovation studios.

As a Design Engineering intern at VanBerlo, you'll have the chance to work with and learn from our expert creative & technical teams, as well as the opportunity to hone your skills while working on a variety of real-life projects.

So if you're an ambitious Design Engineering student looking to kick-off your career, we'd love to hear from you.

What you bring

- A positive can-do attitude with a keen enthusiasm for learning and improvement.
- At proficient user of 3D modelling software (e.g. Solidworks).
- A broad knowledge of mechanical principles and the ability to translate them into creative concepts and solutions.
- A basic knowledge of manufacturing production processes and constraints.
- Comfortable creating physical models, from rough prototypes to more refined aesthetical models.
- A passionate, out-of-the-box thinker who dares to share their thoughts and ideas.
- Pursuing a degree in Design Engineering, Mechanical Engineering, Industrial Design or similar.
- A portfolio showcasing your ability to create well-considered solutions, as well the processes, prototypes and creative thinking that led to them.
- Ability to communicate in English (additional languages would be a bonus).
- Experience working with electronic components / systems would be a bonus.

What we offer

- The opportunity to work on real life projects for a range of international clients.
- The chance to learn from and work with our multidisciplinary team of creative and technical experts.
- The opportunity to be part of our vibrant & dynamic atmosphere, working from one of our two stunning studio spaces.
- A dedicated mentor to help you achieve your learning & experience goals.

Conditions

- To qualify for an internship position at VanBerlo you must either be a registered EU citizen or a non-EU citizen who is currently enrolled at a Dutch University/ HBO.
- This internship role is an experience traineeship, meaning this role is not suitable for students looking to work on their own project, or those seeking to work on a final thesis project.
- Internship is for a minimum period of 4 months.
