

## Double Diploma requirements Master ID

Master students taking a Double Diploma must complete the same mandatory courses as other students in the department of ID (Major consisting of **45 ECTS**):

- The mandatory ID Master course (5 ECTS).
- The 2 first-year projects (one Design Project and one Design Research Project) (35 ECTS).
- The Final Master Project proposal (5 ECTS)

The Final Masters Project (FMP) may include aspects of both programs but is assessed according to the same procedure and guidelines that apply to all ID students; within the ID program the FMP corresponds to a study load of 30 ECTS, a joint graduation project will be (at least) 45 ECTS in a Double Diploma program.

As an ID student you can make choices within your free space. For students who apply for a Double Diploma, the following options are available (total of **30 ECTS**):

1. M2.1 option (15 ECTS) + 3 elective courses (15 ECTS)
2. 6 elective courses (30 ECTS)

In all cases, one of the elective courses needs to be a designated “track” course.

The Examination Committees of both programs need to approve the Double Diploma program. General information about a Double Diploma can be found here:

<https://studiegids.tue.nl/opleidingen/internal-double-diploma/master-programs/?L=>.

The procedure on how to submit the request can be found in the EC request information on the “forms and files” page on the online education guide.

The following needs to be filled out in the “template proposal form double diploma master”. Please specify your choices (including code and name).

Core courses:

- Project 1 (15 ECTS)
- Project 2 (20 ECTS)
- Core course CDR (5 ECTS)

Specialisation:

- Track course (5 ECTS)
- FMP proposal (5 ECTS)
- M2.1 option (15 ECTS)

Electives:

- 1 elective (5 ECTS)
- 1 elective or 1 exemption (in case of International Experience > 15 ECTS) (5 ECTS)

Graduation project:

- FMP (xx ECTS)

Please check if you need to do a pre-Master program before enrolling in the Master of your choice.
