

Suggestions for elective courses at TU Delft and Utwente in the field of Sustainable Energy Technology

				EC	
Quarter 1	TU Delft	Aerospace Engineering	Wind Resource and Wind Farm Yield	AE4W30	4
Quarter 2	TU Delft	Aerospace Engineering	Introduction to Wind Turbines: Physics and Technology	AE4W02TU	4
	TU Delft	Electrical Engineering, Mathematics and Computer Science	Thermochemistry of Biomass Conversion	SET3070	4
	UTwente	Thermal and Fluid Engineering	Energy from Biomass	201700023	5
Quarter 3					
Quarter 4	TU Delft	Mechanical, Maritime and Materials Engineering	Offshore Wind Farms Design	OE44120	4
	UTwente	Engineering Technology - Engineering Fluid Dynamics Group	Wind energy (fourth quarter = 2B)	201700024	5

Check actual information about quarter and timeslot at <https://studiegids.tudelft.nl/> or <https://osiris.utwente.nl/student/>
