

# e/MTIC Honors

## bench to bedside

### What?

- Hands-on 6-month project that takes data science research (bench) into clinical practice (bedside)
- Be part of a team of clinical and data science professionals
- Together with Philips and the Catharina hospital

### Who?

Future master students from:

- EE (Care & Cure)
- BME (ME)

### Why?

- Enable the adoption of cutting-edge data science in the real world
- Network and become part of the e/MTIC community
- Experience the clinical and business environment of e/MTIC
