

2023 - 2024

Exchange partners and available semester spots

TU/e Department of the Built Environment

Disclaimer:

This survey serves to increase transparency and improve student orientation with respect to the course offerings at our exchange partners. Hopefully it will make it easier for you to assess which partners will best suit your master study program ABP or CME. No rights can be derived from this survey however, as the information provided might be incomplete, and may be subject to changes made by our partner universities. For a complete and up to date survey you are advised to consult the respective partner's webpages for incoming exchange students.

Internal deadlines

(for indicating destination preferences in Mobility Online)

for exchanges in the autumn/winter semester (our sem. A) → **March 1***

for exchanges in the spring/summer semester (our sem. B) → **September 1***

*Important:

If an **uneven** number of semester spots per academic year is available (f.i. 1 or 3), the deadline for indicating preferences is March 1 **for both semesters**. In this case you are required to send an e-mail to the departmental international office, e-mail exchange.be@tue.nl

If you would like to go to **RMIT in Melbourne** in our semester 1 (= their semester 2), you should already notify the international office (exchange.be@tue.nl) before **10 February**. Because of the early RMIT deadline, the available spot(s) for this semester will already be allocated around mid February!

AUSTRALIA

The University of Sydney (USYD),
School of Architecture, Design and Planning

Departmental agreement.

Agreement expiry date: 1 September 2024.

Number of available semester spots: to be determined yearly.
Number of spots in 2023/2024: 2 (higher number **not** negotiable).
autumn semester: 1
spring semester: 1

Available study programs:

Language of instruction: English. Master study programs offered by the School of Architecture, Design and Planning: [Architecture](#), [Urban Design](#), [Urban Design and Regional Planning](#), [Audio and Acoustics](#), [Building Services](#), [Facilities Management](#), [High performance buildings](#), [Illumination Design](#), [Sustainable Design](#), [Design Innovation](#), [Strategic Design](#), [Heritage Conservation](#), [Urbanism](#). You may take at max. 2 courses from your fulltime study load from another USYD school.

Internship possibilities:

In *addition* you can apply for an internship of 6 local credits at one of USYD's partners (research or industry). This internship will take place alongside your course program at USYD. Placement is competitive and based on (a.o.) your GPA (*gewogen cijfergemiddelde*). Though every effort is made to place all eligible applicants, placement is not guaranteed. For more information you can visit the [USYD internship website](#).

Housing:

USYD guarantees [student accommodation](#) to all housing applicants.

Health cover:

To be able to obtain a student visa for Australia, exchange students are required to purchase Overseas Student Health Cover (OSHC) for the full length of their visa. More information and instructions will be given to students during the exchange application process.

Visa:

Accepted exchange students will be sent an offer for study. Once the student has accepted this offer, he will receive an eCOE code (electronic Code Of Enrollment) which is required for the student visa application.

General:

- 7.0 weighted average grade required.
- Portfolio needed.
- The following documents are accepted as a proof of your mastery of the English language:
 - * a copy of your VWO diploma with a grade 8 or higher for English, *or*:
 - * a statement issued by our departmental international office that you have followed at least 1 full year of higher education with English as sole language of instruction, *or*
 - * an official IELTS, TOEFL, PTE or Cambridge (CAE/CPE), no older than 2 years, with a specific minimum result.
- [Information for incoming exchange students](#).
- 1 USYD credit = 1,25 European Credits (EC).
- note: the academic year in Australia (semester 1) starts in February.

Contact for incoming exchange students:

Kristin Johnson: Kristin.johnson@sydney.edu.au

AUSTRALIA

University of Technology, Sydney (UTS)

Institutional agreement.

Number of available semester spots: to be determined yearly.

Number of spots in 2023/2024 for BE students: 1

autumn semester: 0 - 1

spring semester: 0 – 1

Available study programs:

Language of instruction: English. Students may combine courses from different UTS faculties provided they meet the course prerequisites. For the most relevant subjects you can consult the [course guide](#) of the Faculty of Design, Architecture and Building (DAB). This faculty offers postgraduate programs in “Architecture”, and in “Built Environment - specializations: Planning, Project Management, Construction Management, Property Development, Real Estate Investment”. Subjects in other faculties will be assessed by each faculty based on the student’s transcript. The information on [this page](#) will help you to choose courses from other disciplines across UTS.

Internship possibilities:

No possibilities.

Housing:

During the application process, students will be directed to [UTS Housing Service](#) where they can apply for on-campus accommodation. Note that the number of accommodations is limited, and that housing cannot be guaranteed. Accommodations are allocated on a first-come first-served basis. If you would like to/need to look for off-campus accommodations, you can find more information [here](#).

Health cover:

To be able to obtain a student visa for Australia, exchange students are required to purchase Overseas Student Health Cover (OSHC) for the full length of their visa. More information and instructions will be given to students during the exchange application process.

Visa:

Accepted exchange students will be sent an offer for study. Once the student has accepted this offer, he will receive an eCOE code (electronic Code Of Enrollment) which is required for the student visa application.

General:

- 7.0 weighted average grade required.
- If ≥ 1 full year of higher education with English as sole language of instruction, no official language test is required.
- [Information for incoming exchange students](#).
- [360-degree virtual tour](#) and [Youtube video](#).
- 1 UTS credit = 1,25 European Credits (EC).
- note: the academic year in Australia (semester 1) starts in February.

Contact for incoming exchange students:

Shelley Domberger, Study Abroad and Exchange Team, e-mail: studyabroad.exchange@uts.edu.au

AUSTRALIA

Royal Melbourne Institute of Technology (RMIT)

Institutional agreement.

Number of available semester spots: to be determined yearly.

Number of spots in 2023/2024 for BE students: 2

autumn semester: 1

spring semester: 1

Important remark:

*If you would like to go to RMIT in Melbourne in our semester 1 (= their semester 2), you should already notify the international office (exchange.be@tue.nl) before **10 February**. Because of the early RMIT deadline, the available spot(s) for this semester will already be allocated around mid February!*

Available study programs:

Language of instruction: English. You can design your study semester by selecting courses from across the extensive range of RMIT's disciplines, provided you meet the course prerequisites. Most relevant master study programs: [Architecture](#), [Urban Design](#), [Urban Planning and Environment](#), [Energy Efficient and Sustainable Building](#). For a survey of all available master programs you can consult the [course selection guide](#).

Internship possibilities:

The agreement is also open for research internships (if available).

Health cover:

To be able to obtain a student visa for Australia, exchange students are required to purchase Overseas Student Health Cover (OSHC) for the full length of their visa. More information and instructions will be given to students during the exchange application process.

Visa:

Accepted exchange students will be sent an offer for study. Once the student has accepted this offer, he will receive an eCOE code (electronic Code Of Enrollment) which is required for the student visa application.

General:

- 7.0 weighted average grade required.
- A portfolio is required from students that take courses starting with ARCH, VART or GRAP.
- If ≥ 1 full year of higher education with English as sole language of instruction, no official language test is required.
- [Information for incoming exchange students](#).
- 1 RMIT credit = 0,625 European Credit (EC).
- note: the academic year in Australia (semester 1) starts in February.

AUSTRIA

TU Graz,
Faculty of Civil Engineering

Erasmus agreement - Erasmus code institution: A GRAZ 02

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

TU Graz has a large offer in English taught classes. Students need to be nominated by TU/e for one (1) of the following master programs at TU Graz (but are nevertheless free to combine courses from this program with courses of other TU Graz master programs). *Courses in the field of architecture are however only open to architecture students, who have been nominated based on the agreement with TU Graz Faculty of Architecture.* The master programs you can choose to be nominated for are [Civil Engineering and Structural Engineering \(in German\)](#), [Civil Engineering Science and Infrastructure \(in German\)](#), [Civil Engineering – management](#), [Geosciences \(in English\)](#), [Geotechnical and hydraulic engineering \(in English\)](#), [Construction Management and Civil Engineering \(in German\)](#).

Also see their [full course catalogue](#).

Internship possibilities:

100% research internships/ MSc thesis projects are possible provided the student has found a co-tutor at TU Graz before the Erasmus exchange application is filed. This internship will count as a normal exchange semester spot.

Housing:

No on-campus housing available, but students can book a room with [OeAD Student Housing](#).

General:

- Sufficient knowledge of English (B2) or German (B2) must be proved through a [language certificate](#).
- [Information for incoming exchange students](#).
- TU Graz [exchange brochure](#).
- TU Graz [fact sheet for exchange students](#).
- European Credits (EC).

Contact for incoming exchange students:

Gitte Cerjak, e-mail: gitte.cerjak@tugraz.at

AUSTRIA

TU Graz,
Faculty of Architecture

Erasmus agreement - Erasmus code institution: A GRAZ 02

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Although the agreement is concluded with the faculty of architecture, all MSc study programs are open to exchange students. *Courses in the field of architecture are however only open to architecture students, that are nominated based on the Erasmus agreement with TU Graz Faculty of Architecture.* Large offer in [English taught classes](#). MSc studios (16 EC) and electives are offered either bilingual or in English. Most relevant master study programs: [Architecture \(in German\)](#), [Civil Engineering Science and Infrastructure \(in German\)](#). Also see their [full course catalogue](#).

Internship possibilities:

100% research internships/ MSc thesis projects are possible provided the student has found a co-tutor at TU Graz before the Erasmus exchange application is filed. This internship will count as a normal exchange semester spot.

Gitte Cerjak, e-mail: gitte.cerjak@tugraz.at

AUSTRIA

Universität Innsbruck (UIBK),
Institut für Experimentelle Architektur

Erasmus agreement - Erasmus code institution: A INNSBRU 01

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

You may select courses from all UIBK MSc study programs, provided the course prerequisites are met. UIBK offers MSc [study programs](#) in the field of Architecture (*in German*), Civil Engineering (*in German*), Materials Sciences and Nanosciences (*in German*), Geography: Global Change – Regional Sustainability (*in German*), Sustainable Regional and Destination Development (*in German*), Environmental Engineering (*in German*). Remark: the joint master program “Environmental Management of Mountain Areas” is not open to exchange students. To search for courses taught in English you can use the [course catalogue](#) → advanced search → change language of instruction.

Internship possibilities:

It is up to the UIBK department to decide if they can accept students for a research internship. Interested students should therefore contact the [respective department](#) directly. Accepted trainees cannot get any student status at UIBK and can therefore not attend any lectures.

General:

- A good command of the German language is required.
- [Information for incoming Erasmus students.](#)
- EC credits.

Contact for incoming Erasmus students:

Robert Natter, e-mail: erasmus-incoming@uibk.ac.at

BELGIUM

Universiteit Hasselt,
Faculteit Architectuur en Kunst

Erasmus agreement - Erasmus code institution: **B DIEPENB 07**

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

MSc study program [Architectuur](#) (in Dutch), Exchange program [Interior Architecture](#) (in English).

Internship possibilities:

Interested students are advised to contact the faculty's academic contact person.

Housing:

See their accommodation database.

General:

- [Information for incoming exchange students.](#)
- EC credits.

Contact for incoming Erasmus students:

Admission and registration: Erika Vandersmissen, e-mail: erika.vandersmissen@uhasselt.be

Departmental academic contact: Dr. Els Hannes, e-mail: els.hannes@uhasselt.be

BELGIUM

Université de Liège (ULiège),
Faculty of Applied Sciences

Erasmus agreement - Erasmus code institution: **B LIEGE 01**

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Students are bound to [the MSc study programs offered by the Faculty of Applied Sciences](#) This

faculty is located on the Liège Sart-Tilman campus. You may sign up for at max. 1 course from another faculty's master study program. Most relevant MSc study programs:

- [Civil Engineering](#) (specializations: Civil Engineering (*lectures and/or course material in English*), Urban & Environmental Engineering (*in English*)).
- [Architectural Engineering](#) (specializations Architectural and Urban Engineering (*in French*), and Urban and Environmental Engineering (*in English*)).

Internship possibilities:

Students are welcome for a research or thesis internship. MSc thesis projects of Erasmus exchange students will be evaluated and credited by the thesis jury in Liège. These MSc thesis internships will count as a normal exchange semester spot. Students may also apply for a research internship out of the context of agreement based exchanges. These internships are mainly initiated between professors from both the sending and the receiving university. Interested students can contact the international office placements officer for more information, e-mail: anne-laure.villeminot@uliege.be

Housing:

Uliege offers a student rental service. For more information see the [Liège Campus accommodation webpage](#).

General:

- [Information for incoming exchange students](#).
- Students that would like to take courses that are lectured in French, should proof that their French language skills are at B1 level.
- Uliege offers French language courses prior to and during the exchange semester.
- EC credits.

Contact for incoming Erasmus students:

Marta Kucharska and Pauline Antoine, International Office – student's mobility - incoming, e-mail: mobil.in@uliege.be

BELGIUM

Katholieke Universiteit Leuven (KUL) - campus Ghent,
Faculty of Engineering Science

*Erasmus agreement - Erasmus code institution: **B LEUVEN 01***

Semester spots available per academic year: 4

autumn semester: 2

spring semester: 2

Available study programs:

Most (but not all) courses offered by the Faculty of Engineering are open to exchange students. Our students can choose their courses from the master programs in Architectural Engineering (*in English*), Civil Engineering (*in English*), Materials Engineering (*in English*) and Mobility and Supply Chain Engineering (*in English*). For an outline of these courses, see their [survey Courses for Exchange Students Faculty of Engineering Science](#).

Internship possibilities:

Unknown.

General:

- Language of instruction: English.
- [Information for incoming Erasmus students.](#)
- EC credits.

Contact for incoming Erasmus students:

Pascale Conard, e-mail: pascale.conard@kuleuven.be

BELGIUM

Katholieke Universiteit Leuven (KUL) - campuses Brussels and Ghent,
Faculty of Architecture (Sint-Lucas)

Erasmus agreement - Erasmus code institution: B LEUVEN 01

Semester spots available per academic year: 4

autumn semester: 2

spring semester: 2

Available study programs:

Architecture:

Exchange students are welcome in the 1st, 2nd, or 3rd semester of the English taught [Master of Architecture](#). Students can select one (1) [design studio](#) (organized across both campuses) and one (1) [elective](#) per semester.

Urban Planning and Spatial Design:

Campus Brussels. Students are welcome in the 3rd semester of the master program [Urban Planning and Spatial Design](#). Students that would like to take Dutch taught classes of the master program [Stedenbouw en Ruimtelijke Planning](#) are advised to contact the KUL international office.

Internship possibilities:

MSc thesis internships or research internships might be possible either with a traineeship agreement or based on the bilateral Erasmus agreement. In the latter, the internship will be deducted from the number of available semester spots. KU Leuven does not arrange any MSc thesis internships for students in the field of architecture.

Accommodation:

Students will have to rent a room on the private housing market. The department of Student Services can put you in touch with trustworthy organizations. Contact and information:

Campus Brussels: Ms. Anke van Riel, e-mail: anke.vanriel@luca-arts.be

Campus Ghent: Ms. Liselotte Dobbelaere, e-mail: Liselotte.dobbelaere@luca-arts.be

General:

- [Information for incoming exchange students.](#)
- [Academic year calendar.](#)
- European Credits (EC).

Contact for incoming Erasmus students:

International Relations Office Sint-Lucas: Mrs. Nele De Meyere and Mrs. Sandra Pierpont, e-mail: international.arch@kuleuven.be

BELGIUM

Université Catholique de Louvain (UCL) – campuses Brussels, Tournai, Louvain-la-Neuve),
Faculty of Architecture, Architectural Engineering and Urban Planning (LOCI)

Erasmus agreement - Erasmus code institution: **B LOUVAIN 01**

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Our students are bound to the master courses offered by LOCI: [Architecture](#) (in French – campus Tournai), [Architecture](#) (in French – campus Brussels), [Architecture Civile](#) (in French – campus Louvain-la-Neuve), [Urbanisme et Aménagement du Territoire](#) (in French – campus Louvain-la-Neuve). You are allowed to take a minor part of your study program from other faculties on the Louvain-la-Neuve campus, on the condition that you meet the course prerequisites, and that the other campus faculty has no objections.

Internship possibilities:

Students are welcome to do a research or MSc thesis internship during their exchange semester. The supervision will be done in an “English-friendly” environment.

General:

- Language of instruction: French (level B1 required).
- Portfolio required as part of the application procedure.
- More information is available on UCL's [webpage for international exchange students](#).
- EC credits.

Contact for incoming Erasmus students:

Campus Louvain-la-Neuve and Campus Brussels: Marcela Andrea Tapia Gomez, e-mail: marcela.tapiagomez@uclouvain.be

Campus Tournai: Laurie Lefebvre, e-mail: laurie.lefebvre@uclouvain.be

CHINA

Tongji University, Shanghai,
College of Architecture and Urban Planning (CAUP)

Aalto University, Helsinki,
School of Engineering

*Erasmus agreement - Erasmus code institution: **SF ESPOO12***

Semester spots available per academic year: 4

autumn semester: 2

spring semester: 2

Available study programs:

Students should choose at least 2/3 of their courses from one (1) single master's program offered by the School of Engineering. At max 1/3 of the courses may be taken from another MSc program at

Aalto University except for BIZ (School of Business) and ARTS (School of Arts, Design and Architecture) classes.

Most relevant MSc study programs: Real Estate Economics, Building Technology, Spatial Planning and Transportation Engineering. Note that the master program in Water and Environmental Engineering is **not** open to exchange students). For more information see the Aalto the [School of Engineering survey of courses offered in English](#).

Aalto expects students to study full time while at Aalto. Full workload is 30 EC per semester.

Internship possibilities:

Unknown.

Housing:

Students can apply for housing through [HOAS](#) or [AYY](#) (Aalto's student union). However, as the quota is limited, housing cannot be guaranteed. For more information and other options, see Aalto's information page on [housing for exchange students](#).

General:

- [Information for incoming Erasmus students](#).
- EC credits.

FINLAND

Tampere University,
Hervanta Campus

*Erasmus agreement - Erasmus code institution: **SF TAMPERE 17***

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Look [here](#) for a survey of all courses *in English* offered by Tampere University. Students can only take and combine courses offered by the Hervanta Campus. Study fields: architecture, materials science, mechanical engineering. Architecture courses are only open to architecture students and require a portfolio.

Internship possibilities:

Students that would like to do a thesis project, need to be nominated as Erasmus exchange student. Thesis projects will be credited by Tampere University. Research projects can be done out of the context of agreement-based exchanges. These students will not get a status as student and will therefore not have access to any student facilities. Both thesis projects and research projects are quite rare at the Hervanta Campus.

GERMANY

TU Darmstadt,
Faculty of Architecture

Erasmus agreement - Erasmus code institution: **D DARMSTAD 01**

Semester spots available per academic year: 3

autumn semester: 1 - 2

spring semester: 1 - 2

Available study programs:

You can choose and combine courses from all MSc study programs at TU Darmstadt, provided you meet the course prerequisites. An overview of all courses can be found in the [course catalogue](#). Most relevant MSc study programs: Architecture (*in German**), Sustainable Urban Development (*in English*), Civil Engineering (*in German*), Construction Law and Construction Industry (*in German*), Environmental Engineering (*in German*). Furthermore some modules of the Advanced MSc program International Cooperation and Urban Development (*in English*) are open to exchange students. In the section "[Downloads for incoming students](#)" students can find the architecture course programs of the recent semesters.

**The majority of the design courses and elective courses of the MSc study program in Architecture are also offered in English.*

Internship possibilities:

Research and MSc thesis internships are possible, but only for students who have already found a supervisor at TU Darmstadt. Interested students can contact the Faculty of Architecture for more information.

Housing:

TU Darmstadt supports exchange students in finding an adequate [accommodation](#).

General:

- German level B1, or German level A2 + participation in German intensive language course (at TU Darmstadt four weeks before the semester starts) required for students taking classes in German.

GERMANY

TU Dortmund,
Faculty of Architecture and Civil Engineering

Erasmus agreement - Erasmus code institution: D DORTMUN 01

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Students can choose courses from the MSc degree programs offered by the Faculty of Architecture and Civil Engineering: Architecture and Urban Design (*in German*), Civil Engineering (*in German*), Real Estate and Construction Management (*in German*). If they meet the course prerequisites, and with the prior approval of the respective TU Dortmund faculty students can also include courses from the MSc program in Spatial Planning (*German and English*), offered by the Faculty of Spatial Planning, and Mechanical Engineering (*in German*) offered by the Faculty of Mechanical Engineering. For a full survey you can consult the [course catalog](#).

Internship possibilities:

Unknown.

General:

- A good command of German is advised but not compulsory.
- TU Dortmund offers a 4-week German Intensive course prior to each semester, and German language courses during the semester. For exchange students all these courses are free of charge.
- Guaranteed accommodation.
- Accepted students will receive a *semester ticket* for public transport throughout North Rhine-Westphalia.

International Students Office, e-mail: erasmus-in@intl.kit.edu

GERMANY

TU München (TUM),
Faculty of Architecture

Erasmus agreement - Erasmus code institution: D MUNCHEN 02

Semester spots available per academic year: 4

autumn semester: 2

spring semester: 2

Available study programs:

Courses are either offered in German or English, or bilingual. Students need to take 60% of their courses from the departmental master study programs *Architecture, Landscape Architecture, Resource-efficient and Sustainable Building, Urbanism – Landscape and City*. For more information on the courses belonging to these study programs, you can consult [TUMonline](#) (choose *for Continue without login*).

Internship possibilities:

Only thesis internships possible. These can only be done at the TUM department the student is assigned to (within agreement places) and only if the student has found a supervisor at TUM before filing his exchange application.

Accommodation:

Students have to find a room by themselves on the private market with the help of [TUM's tips for accommodation search](#).

General:

- TUM has campuses in Munich, Garching, Weihenstephan, Straubing and Heilbronn.
- Proof of German proficiency level B1 required for students taking classes lectured in German.
- Students can only sign up for additional courses offered by another TUM faculty with prior approval of the respective faculty.
- [Information for incoming exchange students](#).
- European Credits (EC).

Contact for incoming Erasmus students:

- EC credits.

Contact for incoming Erasmus students

international office team – incoming, e-mail: erasmus-incoming@auth.gr

ITALY

Università degli Studi di Firenze (UNIFI),
School of Architecture (DIDA)

Erasmus agreement - Erasmus code institution: I FIRENZE 01

Semester spots available per academic year: 1

autumn semester: 0 - 1

spring semester: 0 - 1

Available study programs:

[Architecture \(Curriculum: "Architectural Design"\)](#) (In English – Florence Campus), [Urban and Regional Planning and Design \(Curriculum: "Urban and Regional Planning and Design"\)](#) (in English – Florence Campus), [Architecture](#) (in Italian – Florence Campus), [Landscape Architecture](#) (in Italian, Florence Campus), [Design](#) (in Italian – Calenzano Campus), [Fashion System Design](#) (in Italian – Calenzano Campus), [Urban and Territorial Planning](#) (in Italian – Prato Campus). For including courses from other Roma Tre schools the prior consent of the DIDA Erasmus coordinator is required. It is also possible to [search for subjects by name](#).

Internship possibilities:

Upon request UNIFI's international office can assign an MSc thesis internship supervisor. Research internships can be arranged through UNIFI's Traineeship Office. Both types of internship will be deducted from the number of available semester spots, so please first contact the BE international office when you are interested in a research or thesis related internship at UNIFI.

Housing:

UNIFI does not arrange accommodation for exchange students. Students looking for accommodation can file an application at DSU Toscana, e-mail residenze.fi@dsu.toscana.it (service is subject to application and availability), or they can use one of the [housing search platforms](#) advised by UNIFI.

Language requirements:

Students that intend to take classes lectured in English can suffice with a statement from the BE international office about their mastery of the English language. These courses however cannot grant acceptance to all incoming students, so it may be possible that you later on in the process need to switch to courses held in Italian. For students that would like to (or need to) attend courses held in Italian, an officially certified level B1 of Italian is mandatory.

General:

NEW ZEALAND

Victoria University of Wellington (VUW)

Institutional agreement.

Agreement expiry date: continuous – no end date.

Number of available semester spots: to be determined yearly.

Number of spots in 2023/2024 for BE students: 2

autumn semester: 1

spring semester: 1

Available study programs

All master level courses are conducted in English. Students can take courses from all MSc study programs (subject to faculty approval) for which they meet the prerequisites, provided the course is not listed on VUW's webpage with [restrictions](#). Most relevant MSc study programs: Architecture, Architectural Science, Design, Design Innovation, Design Technology, Interior Architecture, Landscape Architecture, Fine Arts, User Experience Design.

To search for suitable courses, you can either look at the [course catalogue](#), or you can use VUW's [course finder](#).

Internship possibilities:

Unknown.

Housing:

University accommodation is guaranteed for all exchange students that apply before the deadline.

Visa application:

Accepted students need to [apply for an Exchange Student Visa](#) at least 90 days before the start of their exchange semester. Before you can apply, you need to accept the *Offer of Place* that VUW will send to all accepted exchange students. This *Offer of Place* will state the exact amount that is due for the compulsory [Studentsafe University insurance](#). It is only possible to apply for an *Exchange Student*

Visa once you have accepted the *Offer of Place*, and after having paid the corresponding insurance fee.

General:

- Minimal weighted average grade of 7.0 required.
- Portfolio required from architecture students.
- The TU/e-BE exam committee only allows students to take courses with codes 400 and 500.
- [Information for incoming exchange students.](#)
- 1 VUW credit point is 0,5 European Credit (EC).

Remark:

The academic year at VUW is divided in *trimesters*:

trimester 2 (July – November).

trimester 3 not open for exchange.

trimester 1 (end February – July).

SINGAPORE

National University of Singapore (NUS)

Institutional agreement

Semester spots available per academic year: to be determined.

Available semester spots in the academic year 2023-202 for BE students: 4

autumn semester: 2

spring semester: 2

Available study programs

Students should choose their courses from the survey [of Modules Offered for Non-Graduating Students](#) (*in English*). (Our exam committee considers all courses starting with 4xxxx or 5xxxx to be MSc level courses).

Internship possibilities:

Research internships are not included in the agreement, which means that you can only apply for a fee-paying (non-exchange) internship. Students need to secure a research supervisor from the relevant department at NUS. The application should be filed 3 months in advance with a supporting letter from your TU/e supervisor and a detailed training plan. For more information, see the NUS [non-graduating research](#) page.

Housing:

Students can only apply for on-campus housing after being accepted by NUS. More information on how and when to apply will be included in the acceptance letters. On-campus housing however is

extremely limited and cannot be guaranteed. You are therefore advised to look for [off-campus housing](#).

General:

- [Information for incoming exchange students](#).

SOUTH AFRICA

University of Pretoria (UP)

Institutional agreement

Agreement expiry date: continuous – no end date.

Semester spots available per academic year: to be determined

Available semester spots in 2023-2024 for BE students: 1

autumn semester: 0 - 1

spring semester: 0 - 1

Available study programs

All master study programs are taught in English. Students are supposed to choose for one specific MSc study program and take their courses from that program. They can be allowed to take a minority of their courses from another MSc program, but in this case UP's prior consent is always required. Most relevant MSc study programs are offered by the "School of Engineering", and the "School for the Built Environment" that are part of the "Faculty of Engineering, Built Environment & IT": *Architecture, Rural development, Environmental Engineering, Structural Engineering, Construction Management, Real Estate, Transportation Engineering*. For a detailed survey of all master programs see the UP [yearbooks](#).

Internship possibilities:

Interested students should contact [UP's international office](#) for more information. Accepted students will be charged an administration fee, see: [application procedure](#). The internship will not be deducted from the number of available semester spots.

General:

- [Information for incoming exchange students.](#)
- To be able to obtain a student visa for South Africa, students are compelled to take out additional health insurance as per UP's instructions.
- 1 EC = 2,8 local credits.

Contact for incoming exchange students:

Ms. Mahlogonolo Mphahlele, e-mail mahlogonolo.mphahlele@up.ac.za

SPAIN

Universidad Politécnica de Madrid (UPM)
Escuela Técnica Superior de Arquitectura (ETSA)

Erasmus agreement - Erasmus code institution: E MADRID 05

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs

Students should choose their courses from the following master study programs. Language of instruction of these programs is Spanish: Master Universitario en Comunicación Arquitectónica, Master Universitario en Conservación y Restauración del Patrimonio, Máster Universitario en Construcción y Tecnología Arquitectónicas, Máster Universitario en Estructuras de la Edificación, Máster Universitario en Planeamiento Urbano y Territorial, Máster Universitario en Proyectos Arquitectónicos Avanzados. For more detailed information on these programs you can consult [this webpage](#).

Housing possibilities:

--

Internship possibilities:

Unknown.

General:

- [Information for incoming Erasmus students](#).
- Accepted students can enroll in an [intensive course of Spanish](#).
- EC credits.

SPAIN

Universidad Politécnica de Valencia (UPV),
School of Civil Engineering (ETSICCP)

Erasmus agreement - Erasmus code institution: E VALENCI 02

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs

MSc study programs: [Civil Engineering](#), [Environmental Engineering](#), [Planning and Management in Civil Engineering](#), [Transportation, Land and Urban Development](#). Language of instruction: mainly Spanish. Only a very limited number of courses is lectured in English, see: [English course offer of the School of Civil Engineering \(ETSICCP\)](#). Upper menu → international → Erasmus&exchange students → classes taught in English.

Note that the respective pages generate courses at both BSc and MSc level.

With the prior approval of both UPV school students might be allowed to take at max 12 of 30 EC of their courses from another UPV faculty. For a full survey of courses offered in English, see: [academic information](#). **IMPORTANT:** *UPV cannot guarantee your participation in the chosen English-language subjects until the actual start of your exchange semester!*

Internship possibilities:

Unknown.

Housing:

Housing in Valencia is not difficult to find. Although UPV does not provide housing for exchange students, the university has included some information that may be of help to you in the UPV fact sheet (see below).

General:

- Language requirements: DELE B1 or SIELE B1 level of Spanish for students taking courses in Spanish. For subjects taught in English, a lower level of Spanish suffices. The number of subjects taught in English is very limited and participation cannot be guaranteed. It might therefore be unavoidable to also include Spanish-language subjects in your exchange study program. *If your Spanish language skills are below B2 level, we recommend you not to choose for UPV as destination for your exchange semester!*
- UPV offers Spanish language courses at several levels prior to, and during the exchange of which they will inform students during their application.

SWEDEN

Chalmers University of Technology, Göteborg,
Department of Civil and Environmental Engineering

*Erasmus agreement - Erasmus code institution: **S GOTEBOR 02***

Semester spots available per academic year: 3

autumn semester: 1 - 2

spring semester: 1- 2

Available study programs:

You can choose your courses from the following master study programs: [Design and Construction Project Management \(in English\)](#), [Infrastructure and Environmental Engineering \(in English\)](#), [Sound and Vibration \(in English\)](#), [Structural Engineering and Building Technology \(in English\)](#). It is possible to include courses from other Chalmers UT [MSc study programs](#) if these programs are open to exchange students, and on the condition that the student meets the course prerequisites. You can use the [study portal](#) to search for specific courses. It is however **not possible** for students that apply at the Department of Civil and Environmental Engineering to include courses that are offered by the

Department of Architecture (Architecture and Urban Design, Architecture and Planning beyond Sustainability).

Internship possibilities:

No possibilities.

Accommodation:

Chalmers UT cannot guarantee accommodation. Rooms and apartments are in high demand, which can make it difficult for you to find suitable and affordable student housing in Göteborg. You therefore must be prepared to live outside of the city during your exchange. Göteborg can however quite easily be reached by tram or bus from most parts of the Göteborg area and suburbs. For more information, see the Chalmers UT webpage on [accommodation for Erasmus students](#).

General:

- [Information for incoming Erasmus students](#).
- EC credits.

SWEDEN

Lund University (LTH)
Faculty of Engineering

Erasmus agreement - Erasmus code institution: S LUND 01

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Incoming exchange students are required to register for 30 credits per semester, with at least 15 credits at the Faculty of Engineering. Please prepare your study program with care as only in very exceptional cases LTH will allow students to change their initially chosen and approved study program upon arrival in Sweden. Students must meet the course prerequisites. For a survey, see [LTH's exchange course offer](#) (in English). Also see the survey of all [subject areas](#). You are not allowed to take courses and/or projects offered by the School of Architecture. Most relevant master study programs: Disaster Risk Management and Climate Change Adaption, Energy-Efficient and Environmental Building Design, Production and Materials Engineering, Sustainable Energy Engineering, Environmental Management and Policy, Environmental Studies and Sustainability Science.

Internship possibilities:

Students interested in pursuing an internship need to contact a [research group](#) directly. It is up to each department to decide whether they have the possibility to host a trainee.

Accommodation:

Housing in Lund is always in great demand, especially at the beginning of each semester. Exchange students can apply for housing through [LU Accommodation](#) (LUacc). As the number of rooms at

LUacc is limited, students are encouraged to also search through [alternative accommodation agencies](#).

General:

- [Information for incoming Erasmus students](#).
- EC credits.

TAIWAN

National Taiwan University of Science and Technology (NTUST), Taipei

Institutional agreement

Semester spots available per academic year for BE students:: 3

autumn semester: 1 - 2

spring semester: 1 – 2

Available study programs:

Exchange students may take courses from different NTNU departments and are also allowed to take courses from National Taiwan University System (NTU = National Taiwan University, National Normal University, and NTUST). You can use the NTNU Course Catalog System to search for graduate level courses lectured in English. Most relevant departments: College of Design: Department of Architecture. College of Engineering: Department of Civil and Construction Engineering.

Internship possibilities:

Students that would like to apply for an MSc thesis project or research internship can consult the information on the webpage for incoming [internship](#) applicants. Internships will not be deducted from the student numbers in the agreement.

General:

- [Information for incoming exchange students](#).
- 1 NTUST credit = 2 EC.

TURKEY

Middle East Technical University (METU), Ankara,
Department of Architecture

Erasmus agreement - Erasmus code institution: TR ANKARA 04

Semester spots available per academic year: 2

autumn semester: 1

spring semester: 1

Available study programs:

Language of instruction of all study programs: English. Master study programs offered by the Department of Architecture: [Architecture](#), [Building Science](#), [Computational Design and Fabrication Technologies in Architecture](#), [Conservation of Cultural Heritage](#), [History of Architecture](#). Students can take courses from different departments if they meet the course prerequisites, but only with the respective lecturer's prior approval. For more information you can consult the webpage on [course selection for mobility students](#).

Internship possibilities:

Interested students can apply once they have found a supervisor at METU (see: [Research Projects at the Department of Architecture](#)). The international office however does not mediate between students and prospective internship supervisors. Internship applications need to be nominated as Erasmus exchange student. The internship will be deducted from the yearly available semester spots.
