

Guide on how to access and add graduation projects on the MMP

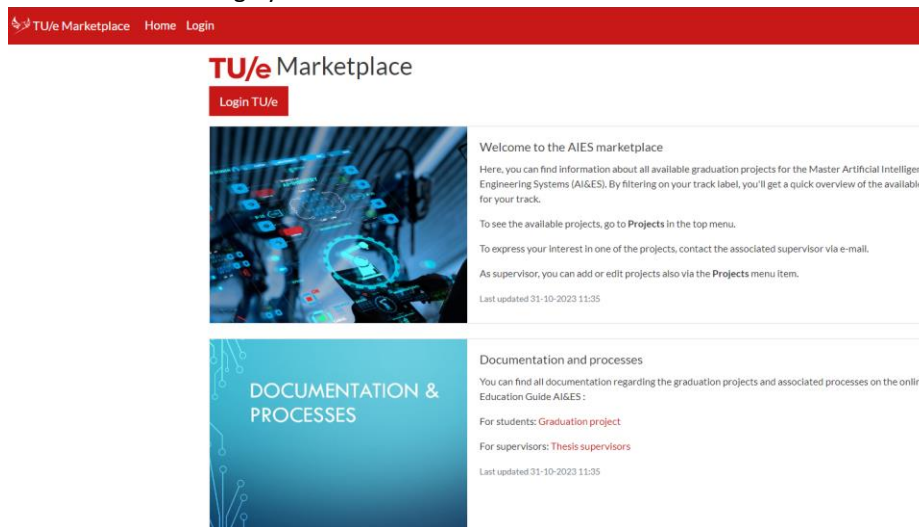

1. [Home page MMP](#)

Welcome to the AI&ES Marketplace

Here, you can find information about all available graduation projects for the AI&ES master program. By filtering on your track label, you'll get a quick overview of the available projects for each track.

2. [Login](#)

- Create an account: go to <https://marketplacetue.nl/> and click **Login TU/e**. Your account will be created automatically once you have filled in your details in the login screen. Please note that if you are new to the AI&ES program, it can take some time until you are able to create new projects. Therefore, should you wish to add projects right away, please contact [Hiltje Nawijn](#) for the appropriate rights on the MMP.
- You will receive an email from [Hiltje Nawijn](#) welcoming you to the MMP, **only** if your name is new to the AI&ES program.
- You will be added to the relevant track. For known thesis supervisors, this has been done already for you.
- You will receive a link to the [Guide Graduation project AI&ES for thesis supervisors](#) for the 2023-2024 academic year. Please make sure to read the document thoroughly.

3. [Create a project](#)

- Click on **Projects** on the top bar.
- Select **New Project** in the menu bar to create a new project.
- Fill in the fields on the **Project Form**.
- In the last field, **Labels**, you can add the track the project is associated with. You can add multiple tracks if needed.
- Click **Save**.
- Your Project is now saved.
- On the **Project** page, you can change the status of the project.

Project Form

Title: *	<input type="text"/>
Research group: ? *	<input type="text"/>
Supervisor: *	<input type="text" value="-----"/>
Assistants:	<input type="text" value="x Marian, Andriana"/>
Courses: ?	<input type="text"/>
Studies: ? *	<input type="text" value="AIES, Master at TU/e"/>
Description: *	<input type="text" value="B I H < > & # \$ % & # \$ % & # \$ %"/>

4. Projects overview

- Via the menu item **All projects**, you will be able to see all available projects and filter per track, research group, and so on.
- Via the submenus of **Projects**, you are able to filter the projects per Published, Favorites or Own projects.
- On the **Own projects** page, it is possible to filter these by Draft, Published, Retired, Reserved.
