

List of courses that cannot be taken as electives by students in the Mechanical engineering major 2021-2022 version 31-08-2021

NOTE: This list is not exhaustive. We advise students to check the course description in Osiris and the overlap in content with major courses. In case of doubts, always contact your Academic Advisor.

The examination committee will check your study package when you submit your program through the PlanApp. This can be done when you completed 90 ECTS and have planned 180 ECTS.
