About the challenge owner + + + + + + + + + + +

Vanderlande is a market-leading, global partner for future-proof logistic process automation in the warehousing, airports and parcel sectors. Its extensive portfolio of integrated solutions - innovative systems, intelligent software and life-cycle services - results in the realization of fast, reliable and efficient automation technology. Established in 1949, Vanderlande has more than 9,000 employees. Vanderlande's 'Innovate' department identifies and explores new ideas in a global ecosystem and determines the value of individual technologies. By working closely with knowledge institutions and start-up companies. Vanderlande is able to create innovative and sustainable solutions that improve the competitive positions of its customers.
