Additional term of confidentiality (2-5 years) for the Graduation report

- If an extension for confidentiality from 2 years to 5 years is required, permission is needed from the dean of the department Mechanical Engineering. In that case the involved company/institute needs to file a request to the dean of the department by filling out this side of the form and sending it to deanME@tue.nl
- The maximum term of confidentiality can be 5 years. After 5 years all graduation reports will be public, as is explained [here](#).
- Extended confidentiality will be granted by the dean under the condition that a financial contribution of €20,000.- (excl. VAT) is made by the company, which will be used for a scholarship for one or more student(s) in the department.
- The student that is about to start a project in the company/institute does not play any part in the procedure.
- The TU/e supervisor for this project does not play any part in the procedure. He or she can only discuss the exact topic of the project with the company supervisor and the student, to find options to avoid confidentiality for the graduation report.

Please elaborate on your motivation to keep the report confidential for 2-5 years:
