[4] The student passes the internship if the final grade is 6.0 or higher
[5] Fill out the motivation for this grade on page 2

TU/e EINDHOVEN UNIVERSITY OF TECHNOLOGY

Result Form Internship MSc programs AT, S&C, SET (PAGE 2)
2023-2024

Name student	

The Intended Learning Outcomes for 'approach and execution of the internship' are formulated as follows:

- Formulate the research question of the professional project, define a methodology to carry out the project and make a planning.
- Apply study-related knowledge and skills at master's level in a professional project.
- Acquire further relevant knowledge and skills, if needed, to accomplish an academic-level professional project.
- Work independently and responsibly at academic level on a professional project within a company setting or research environment.
- Function in a new professional environment, i.e. communicate and collaborate effectively and appropriately with different professionals having different backgrounds in the work environment through written and oral means.

Motivate the grade for 'approach and execution of the internship' in the text box below.

Approach and execution of the internship	Grade	

TU/e EINDHOVEN UNIVERSITY OF TECHNOLOGY

Explanation

Context of this form
This form is part of the procedure: Assessment Internships MSc AT, S&C, SET. This procedure consists of two steps:
1. Assessment by the external supervisor;
2. Grading by the TU/e supervisor including writing a motivation for 'approach and execution of the internship'.

The result of step 1 is input for step 2.

The TU/e supervisor is the only person who is authorized to grade the internship. Therefore he/she has to treat the assessment by the external supervisor as feedback that may be overruled by the TU/e supervisor.

Completion
The TU/e supervisor only submits this form (so both PAGE 1 and PAGE 2) to the CSA of the relevant department, according to the course code. The other form is for personal use only.

Table 1: Course codes internships

Department \ Program	AT	SET	S&C
ME	4AT99	4SE30	4SC03
EE	5AT55	5SE55	5SC55
