## Student Sports Associations

Our student sports associations (SSAs) are the heart of Eindhoven student sports and the Student Sports Center (SSC). In cooperation with the Eindhoven Student Sports Federation (ESSF) and the SSC, our associations offer a wide range of practices, competitions and activities; regardless of your passion, and level. Although participation in matches and competition is an important part of an SSA, you can also first become a training member to maintain your fitness level and get a taste of association life.

Being part of an SSA is a perfect way to stay fit, learn new skills, meet other students and it provides a pleasant break while learning for exams and doing projects. SSAs are led and managed by students. So you can play your favorite sport and help your association flourish at the same time. With 37 associations ranging from team sports, adventure, water sports, martial arts, e-sports, and endurance sports, there is something for everyone. Get involved and make your time as a student in Eindhoven an unforgettable and valuable experience!

## Become a member

Whether you want to try a new sport or continue with your favourite one, our SSAs always welcome you to make unforgettable moments together. Want to join? The most convenient way is to join a training session once and then register.

Of course, you can also contact the club beforehand. Practically all associations allow you to become a member throughout the academic year. The majority of associations have beginners' practices or introductory courses to welcome newcomers.

Give it a shot!
