# PADI Open Water Course

## *Diving*

In our diving course you will learn all the aspects of this fascinating sport. The course consists of a couple of snorkeling lessons, so you learn specific basic skills and how to deal with compressed air cylinders. Besides the practical lessons you will also follow a couple of theoretical lessons in which the instructor tells you the theory of working with compressed air, all safety rules, how to work in teams under water and other aspects of diving. The course can be finished with an examination weekend in which you can obtain a PADI certificate (open water diver). The level and experience of our PADI instructors guarantee a high quality instruction.

For this course you need swimming experience/a swimming certificate.

Price: € 320,-
