Price: 305 Euros including exam

Period: Once a year (May/June)

Day & Time: Sunday, 9h00 - 15h00

3 Days and 1 examweekend

Equipment: swimwear and swimming goggles

Instructor: Tako-Jan Goossens

WHAT YOU CAN EXPECT

In our diving course you will learn all the aspects of this fascinating sport. The course consists of a couple of snorkeling lessons so you learn specific basic skills and how to deal with compressed air cylinders. Besides the practical lessons you will also follow a couple of theoretical lessons in which the instructor tells you the theory of working with compressed air, all safety rules, how to work in teams under water and other aspects of diving. The course can be finished with an examination weekend in which you can obtain a PADI certificate (open water diver). The level and experience of our PADI instructors guarantees a high quality instruction.

This short diving course consists of a theoretical and 3 practical days. The theory should be studied at home before the first day (preparation time 4 to 8 hours). Attention: if you are not prepared you can NOT participate in the pool lessons! The PADI Open Water Diver certification is recognized worldwide and allows you to make dives with a buddy up to a depth of 18 meters.

For this course you need swimming experience/a swimming certificate.

REGISTRATION

You can register for this course via [our website](#) when registration for courses in quartile 4 open (*about the end of April*).
