

TU/e Roadmap COVID-19 measures

Phasing will be decided and communicated by the Dutch National Government and is based on advice from OMT (Outbreak Management Team) and MIT (Maatschappelijk Impact Team).

<https://www.government.nl/topics/coronavirus-covid-19>

General phasing of the national sectorplan Higher Education for COVID-19 measures

	 Scenario dark green (cold) (Prevention)	 Scenario green (flu) (Prevention)	 Scenario orange (Intervention, continuous struggle)	 Scenario red (Intervention, worst case)
	 Higher education is open for all students.	 Rules phase scenario dark green also apply in phase scenario green.	 Rules phase scenario green also apply in phase scenario orange.	 Rules phase scenario orange also apply in phase scenario red.
	 Basic hygiene and health measures including good ventilation.	+	+	+
	 Communicate on vaccination to employees and students.			

This roadmap is a specialization of the national sectorplan Higher Education for COVID-19 measures

 Basic advice (from sectorplan Corona HO)				
	Provide adequate ventilation.	Stimulate the use of self-test kits when symptoms arise.	Recommend preventive self-testing 2x a week.	Maximum 50% simultaneous campus use by students and staff in rooms and on site, customization possible for institutions within this.
	Communicate on vaccination to employees and students.	Additional attention for vulnerable groups.	Where possible, use the safe distance standard (1.5 m).	Intensifying attention to social function of education and keeping an eye on vulnerable groups of students and staff.
	Basic advices on hygiene and health apply, just like every else in society.		Use of mandatory walking routes. Use of mouth masks when moving. More intensive use of distance learning. Where possible, move activities outdoor. Scaling down activities that do not involve the primary teaching and research process (without externals). Spread teaching activities over the entire day. Work-at-home advice for employees (in line with national guideline).	Limitation of contact moments; maximum distribution of educational activities in time and space.

TU/e Roadmap COVID-19 measures

What does this mean for TU/e?

	 Scenario dark green (cold) (Prevention)	 Scenario green (flu) (Prevention)	 Scenario orange (Intervention, continuous struggle)	 Scenario red (Intervention, worst case)
 Research Sub - Lab work (working in laboratories and support areas)	Research on-campus possible based on regular capacity.	Research on-campus possible based on regular capacity.	Scale down research where and when possible. Use personal protective equipment (PPE) where possible. If keeping distance during non-scaled-down research is impossible then additional measures should be taken, e.g. apply cough splash screens or make additional hygiene arrangements.	Only essential research activities may take place; i.e., research that depends on the use of laboratories, workshops, or equipment available only on campus. Essential employees (needed to run the lab) may also work on campus. Analysis of lab results are to be done at home.
 Education	Regular.	Regular. Additional attention to vulnerable groups.	Max. group size. Hybrid format possible.	Max. group size. Contact moments limited.
Sub - Exams	Exams take place as much as possible on campus. Mandatory attendance first final test, for participation resit, is temporarily (2022/2023) cancelled (bachelor).	See dark green.	See dark green.	See dark green.
Sub - Activities study, student and cultural associations	Regular.	Regular.	Non education/research activities outside if possible. Wellbeing activities indoors with max. group size, hybrid format possible.	No activities. If possible, within limits of max. attendance, extras that benefit wellbeing of students are facilitated (extra study places, wellbeing activities, exam trainings).
Sub - International exchange, incoming and outgoing	Travelling not allowed for countries with orange travel advice (according to Dutch Foreign Affairs) unless student applied for temporary exception. No travelling to countries with red advice.	Travelling not allowed for countries with orange travel advice (according to Dutch Foreign Affairs) unless student applied for temporary exception. No travelling to countries with red advice.	Travelling not allowed for countries with orange travel advice (according to Dutch Foreign Affairs) unless student applied for temporary exception. No travelling to countries with red advice.	Travelling not allowed for countries with orange travel advice (according to Dutch Foreign Affairs) unless student applied for temporary exception. No travelling to countries with red advice.
Sub - Ceremonies (diploma ceremonies, graduation sessions, promotions, etc.)	Regular.	Regular.	On campus with max. groups size. Hybrid format possible.	Diploma ceremonies: no guests allowed, option for 'pick up diploma'. Graduation sessions/ promotions: max. group size & hybrid format possible.
Sub - Open days, experience days	Regular.	Regular.	Capacity depends on max. group size per room. Online participation possible.	Online or hybrid.
Sub - Introduction week/master kick off	Regular.	Regular.	Activities mostly outside. One day online program for students with health complaints/in quarantine.	Mix of on campus and online days.

TU/e Roadmap COVID-19 measures

	 Scenario dark green (cold) (Prevention)	 Scenario green (flu) (Prevention)	 Scenario orange (Intervention, continuous struggle)	 Scenario red (Intervention, worst case)
 Working on campus	Working on-campus possible based on regular capacity.	Working on-campus possible based on regular capacity. Workplaces available at least one day per week, more days are possible with manager's approval. Online meetings are the norm.	Working from home in accordance with national guidelines. Workplaces available one day per week, more days are possible with manager's approval. Online meetings are the norm.	Work from home in accordance with national guideline, work from home as much as possible. Workplaces available one day per week, more days are possible with manager's approval. Online meetings are the norm.
Sub - Ventilation	Ventilation in order.	Ventilation in order Buildings with limited ventilation advice to open windows and doors.	Increase ventilation within buildings, turn off central recirculation systems. Buildings with limited ventilation advice to open windows and doors.	Increase ventilation within buildings, turn off central recirculation systems. Buildings with limited ventilation advice to open windows and doors.
Sub - Library / Study and work spaces	Book lending possible. Study workplaces regularly available.	Book lending possible. Study workplaces regularly available.	Book lending possible. Only use designated study workspaces (sticker).	Loan of books on digital reservation and pickup at library desk. Use only designated study workstations (sticker). Reservation through Book My Space required.
Sub - Campus grounds (in- and outside)	Regular use possible.	Regular use possible.	Where possible, use the safe distance standard (1.5m). Use mandatory walking routes.	Mandatory social distancing at 1.5 m away. Use mandatory walking routes.
Sub - Building closing times	No limitations.	No limitations.	No limitations.	No limitations.
Sub - Elevators			Mandatory social distancing, keep 1.5 m apart.	Mandatory social distancing, keep 1.5 m apart.
