Ymke de Jong – Philips Eindhoven

Ymke is working as a data science professional in the Philips global data&AI Center of Excellence at Royal Philips with a current focus on data sharing and data&AI partnerships. Her mission is to connect the academic cutting edge technologies to the practical challenges in healthcare we are facing right now. Seeing data driven solutions actually have impact and meet and exceed expectations gives her energy. Ymke has a background as biomedical engineer and has experience in clinical, insurance and data architecture field. Within e/MTIC Ymke is leading the bench to bedside initiative where we bring AI algorithms from bench (research) to the bedside (clinical practice).
