

# $\mu$ CT 100

The  $\mu$ CT 100 scanner is a state-of-the-art scanner, designed for handling of large samples.

The voxel resolution is dependent on the sample holders, which vary in size ranging from 8 to 99 mm in diameter.

The scanner can be loaded with 6 to 12 sample holders, depending on the holder diameter.

## Specifications

Manufacturer:	Scanco Medical
X-ray energies	45-90 kVp
Voxel sizes	2.6 - 96.7 $\mu$ m
Max scan size	100 x 140 mm ( $\emptyset$ x L)
Max specimen size	100 x 160 mm ( $\emptyset$ x L)
