

Overview Frequently Asked Questions

1. Where can I place vacancies for students?

Contact [Euflex](#) for vacancies. For TU/e as a whole [recruitment days](#) are organized each year and you can participate in these.

2. Who can I contact if I have a trainee opportunity?

Traineeships are organized by the [sections](#) where the students graduate and the procedure per sections differs. You should contact the secretary of the section that matches your assignment. Some sections have a publication board for the presentation of available assignments.

3. Is there a science store?

No, the Mechanical Engineering department does not have a science store. For your knowledge and science questions, you can go to:

- [Integrand Eindhoven](#)
- [UniPartners Eindhoven](#)

4. Can I cooperate with the department of Mechanical Engineering?

The department only works on long-term research. For questions and information about contract research and tertiary funding, contact [Jolanda Snelders](#), Managing Director of the Mechanical Engineering department.

5. Innovation with TU/e

Would you like more information about innovating in cooperation with the Eindhoven University of Technology? If so, get in touch with the [TU/e Innovation Lab](#). The TU/e Innovation lab is the organization within our university that encourages and fosters innovation, the transfer of knowledge and technology, and business development. It is, moreover, TU/e's incubator. They have a good overview of all the research expertise present at the university and can quickly match your research question with the relevant research groups and individuals. A joint exploration often reveals several relevant disciplines and possible forms of cooperation. You can take advantage of this.
