The Research Support Office (RSO) is a central group of TU/e professionals who help researchers to maximize their chances of success with project acquisition and execution. We offer specialized support throughout the whole research project chain.

**MAIN ACTIVITIES**
We are a group of funding, legal and program specialists, supporting researchers at TU/e in developing and executing successful research projects. We do this in close cooperation with the TU/e departments and institutes.

**RESEARCH SUPPORT NETWORK**
We drive the Research Support Network, a community of professionals in departments, institutes and various services, who support researchers in developing and executing research projects throughout the whole research project chain.
The personal grants team advises researchers who plan to apply for a Personal Grant (ERC, Marie Curie, NWO talent scheme) throughout the whole application process.
